Get Started

Next.js

To start counting visitors and page views, follow these steps.

1 Install our package

Start by installing

@vercel/analytics in your existing project.

npm

yarn

pnpm

```
npm i @vercel/analytics
```

2 Add the React component

Import and use the

`<Analytics/>` React component
into your app's layout.

```
import { Analytics } from
```

For full examples and further
reference, please refer to our
[documentation](#)

3 Deploy & Visit your Site

Deploy your changes and visit the
deployment to collect your page
views.

If you don't see data after 30
seconds, please check for content
blockers and try to navigate
between pages on your site.

Or, install automatically with Vercel Agent.

Missing GitHub Connection

Connect a [GitHub repository](#) to install automatically with Vercel Agent.
